

Date:

Patient Name:

As discussed with you, your dental treatment may benefit of administration of IV (intravenous) drugs to achieve a moderate state of sedation (anesthesia).

I will provide the anesthesia services and ensure your safety and relaxation, while your dentist team will provide the clinical aspects of your dental care.

In preparation for the procedure, please complete the Health History attached and return it to me via email. I will review it and call you to discuss it, as well as answer any questions that you might have.

Should you have any questions, please don't hesitate to ask.

Alex Denes, DDS
Master of the College of Sedation in Dentistry
